## SUMMARY

**Results-driven Software Engineer** with **7 years of hands-on experience** building a broad range of software applications. Being personally mentored by my company's CTO, I bring a wealth of value both technically and strategically, bridging development with business goals.

## EXPERIENCES

### FRONTEND DEVELOPER

BizBloqs Management Solutions BV

Makati City, PH

Dec 2023 - Present

- Collaborated with teams across the Philippines, Netherlands, and UK to ensure smooth communication and project alignment.
- Led a cross-functional team of front-end and back-end developers in building web solutions.
- Modernized the UI and improved the UX, contributing to increased company revenue.
- Developed reusable code components, boosting efficiency and consistency across project.
- Conducted code reviews, offering feedback to maintain high code quality.
- Performed thorough testing and debugging to ensure software reliability.

### PROGRAMMER

SL Agritech Corporation

Makati City, PH

Aug 2022 - Nov 2023

- Improved UI design, delivering user-friendly web apps and elevating the overall user experience.
- Resolved critical bugs and implemented key enhancements, boosting system performance and reliability.
- Built and led the development of an HR web app that streamlined applicant tracking and improved recruitment efficiency.
- Communicated technical concepts clearly, bridging the gap between technical and non-technical stakeholders.

## EDUCATION

### BS INFORMATION TECHNOLOGY

University of Eastern Philippines

Northern Samar, PH

- Graduated Cum Laude
